COMPETENCES

- C++
- Python
- Fortran
- Matlab
- Linux
- MacOS
- LaTeX
- Machine Learning
- Galaxy evolution
- Stellar populations
- Optical spectroscopy
- Integral Field Units
- Stellar formation histories
- Large scale structure

EDUCATION

Grado en Física

Universidad de Granada (Granada, Spain) Sep 2015 - Jul 2020

BSc. Physik

Ludwig-Maximillians Universität (Munich, Germany) Sep 2017 - Jul 2018

Máster Universitario en Física y Matemáticas (FISYMAT), speciality in astrophysics

Universidad de Granada (Granada, Spain) Sep 2020 - Jul 2021

POSITIONS

PhD in Astrophysics

Instituto de Astrofísica de Andalucía (Granada, Spain)
Sep 2021 - present

INTERNATIONAL CONFERENCES

1st CAVITY annual meeting 2021

Contributed talk: Dark Matter in CAVITY galaxies

2nd CAVITY annual meeting 2022

Contributed talk: Star formation histories of void galaxies

EAS 2022

Poster presentation: The role of environment in SF of galaxies

3rd CAVITY annual meeting 2023

Contributed talk: Spatially-resolved stellar populations in CAVITY galaxies

EAS 2023

Poster presentation: Spatially-resolved stellar population properties in the WEAVE early results
Poster presentation: Local main sequence in low density environments

OUTREACH

JEDA (Junior Empresa de Divulgación, UGR) | Sep 2015 - Jun 2017

I have taken part in the following events:
- Science Week in the faculty of sciences
- Desgranando Ciencia
- Open day in Parque de las Ciencias

Pint of Science 2023

Space deserts: cosmic voids

ATPATC 2023

European Researchers Night 2023

Cosmic webs and hermit galaxies

COURSES

Machine Learning

Coursera, Standford University

Using Python for Research

EdX, Harvard University

IAA-CSIC Severo Ochoa Advanced School on Galaxy Evolution

IAA Severo Ochoa Advanced School on Star Formation

2nd IAA-CSIC Severo Ochoa School on Statistics, Data Mining, and Machine Learning

IV edition of the course in comunication and scientific outreach

Desgranando ciencia
